Index of Subjects

Acquired resistance, of black mollies to infection by *Ichthyophthirius multifiliis*, 251
Amino acid catabolism, in nematodes, 481, 495
Amino acid metabolism, by *Moniliformis moniliformis, in vitro*, 333
Ancylostoma ceylanicum, permeability changes in the egg-shell of, 547
Anisakis physeteris, differentiation of from the *Anisakis simplex* complex, 383
  the genetic structure of, 383
Anthelmintic screens, use of the aggregation response of *Trichostrongylus colubriformis* in, 531
Antigens, analysis of the variable types of in the metacyclic and mammalian forms of *Trypanosoma congolense*, 99
  characterization of in *Wuchereria bancrofti*, 559
  of *Onchocerca volvulus*, characterization of, 389
  of *Taenia taeniaeformis*, immunochemical analysis of from *E. coli* clones, 599
  on adult male *Schistosoma mansoni*, effect of praziquantel on, 401
Anti-nematodal drugs, effect on nematode motility, as evaluated by a micromotility meter, 341
Apatemon gracilis, population dynamics of in leeches, 517
Attrition, of *Schistosoma mansoni* and *S. haematobium* in laboratory mice, 55

Babesia, seasonal and age distributions of in rodents, 279
Basophil populations, at *Hyalomma anatolicum anatolicum* feeding sites, 305
Behaviour, of *Subtriquetra subtriquetra* in fish, 81
Biomphalaria glabrata, fecundity stimulation of by exposure to *Schistosoma mansoni*, 443
Black mollies, acquired resistance of to infection by *Ichthyophthirius multifiliis*, 251

Catabolism, of amino acids in nematodes, 481, 495
Cercarial concentration, effect of on the infection rate in rainbow trout, 71
Characterization, of the antigens of *Wuchereria bancrofti*, 559
Corynosoma spp., ovarian tissue in juveniles of, 471
Cysticercosis, population dynamics in, 357

Development, of *Haemonchus contortus, in utero*, 371
  of *Litomosoides carinii* in the jird, 317
  of *Subtriquetra subtriquetra* in fish, 81
Development and hatching, permeability changes in the egg-shell during, in hookworms, 547
Diplostomum spathaceum, effects of physical factors on the infection of rainbow trout by, 71
Distribution, of *Schistosoma mansoni* and *S. haematobium* in laboratory mice, 55
Diversity, of helminth communities in various hosts, a discussion of, 205
DNA expression library, for *Taenia taeniaeformis* antigens, 599

East Coast fever, maintenance of infections of, 9
Echinococcosis, population dynamics in, 357
Echinococcus granulosus, effect of monensin on the tegument of the protoscolex of, *in vitro*, 347
Echinorhynchus gadi, ovarian tissue in juveniles of, 471
Echinostoma revolutum, clinical and pathological effects of in the golden hamster, 505
Ecology, of rodent blood parasites, 279
Egg-shell, permeability changes in during development and hatching of hookworms, 547
Eimeria tenella, immunogenicity of the first generation of schizogony of, 1
Energy metabolism, regulation of in adult *Fasciola hepatica*, 217
Enzyme polymorphism, of *Schistosoma mansoni* from naturally infected rats, 39
Eosinophil populations, at *Hyalomma anatolicum anatolicum* feeding sites, 305
Epidemiology, of *Heligmosomoides polygyrus* in mice, 177
Erythrocyte binding, of lectin and ferritin during *Plasmodium falciparum* infection, 17
Excretions–secretions, changes in the production of by *Litomosoides carinii* during development, 317
Eye-fluke, effects of physical factors on infection by, in rainbow trout, 71

Faecal blood loss, in *Nippostrongylus brasiliensis*-infected rats, 539
Faecal egg counts, for *Heligmosomoides polygyrus* in laboratory mice, 189
Fasciola hepatica, regulation of energy metabolism in, 217
Fat body protein, effect of metacestodes on the synthesis and secretion of by *Tenebrio molitor*, 111
Fecundity, in *Biomphalaria glabrata*, effect of exposure to *Schistosoma mansoni* on, 443

Gametocytes, a morphological study of the development of in suspension culture, 263
Gametocytes in culture, automated synchronization of, 263
Genetic diversity, evidence for in *Trypanosoma* (*Nannomonas*) *congolense*, 291
Genetic structure, of *Anisakis physeteris*, 383
Glucose absorption, by the enteric stages of *Trichinella spiralis*, 581
Grahamella, seasonal and age distributions of in rodents, 279
Grillotia erinaceus, action of praziquantel on the metacestodes of, 133
  neuromuscular physiology of, 121, 133
  structure and ultrastructure of muscle systems in, 587
Guadeloupe rats, characterization of *Schistosoma mansoni* infections in, 39

Haemonchus contortus, *in utero* development of, 371
Hamsters, clinical and pathological effects of *Echinostoma revolutum* in, 505
Heligmosomoides polygyrus, amino acid catabolism in, 481, 495
  epidemiology of in mice, 177
  faecal egg counts and fecundity of in mice, 189
Helminth–host populations, an experimental system for the study of the community dynamics of, 177
Helminth communities, discussion of the patterns of in fish and bird hosts, 205
Hepatozoon, seasonal and age distributions of in rodents, 279
Host–parasite relationship, effect of *Pasteuria penetrans* on in *Meloidogyne javanica*, 571
Hyalomma anatolicum anatolicum, cutaneous cellular reactions associated with in cattle, 305
Hybridization probes, use of to investigate genetic proximity in *Trypanosoma congolense*, 291
Hymenolepis diminuta, effect of on the synthesis and secretions of proteins by *Tenebrio molitor*, 111
Hypertriglyceridaemia, induction of by plerocercoid infection in hamsters, 143

Ichthyophthirius multifiliis, acquired resistance of black mollies to infection by, 251
Immunochemical analysis, of *Taenia taeniaeformis* antigens expressed in *E. coli*, 599
Immunogenicity, of the first generation of schizogony in *Eimeria tenella*, 1
Inhibition, of malarial invasion by antibodies against red cell membrane proteins, 427
Intestinal migration, by *Pseudodiplorchis americanus*, 451
In utero development, of *Haemonchus contortus*, 371
In vitro anthelmintic screens, using the aggregation response of *Trichostrongylus colubriformis*, 531

Leeches, population dynamics of *Apatemon gracilis* in, 517
Lipid metabolism, effect of *Spirometra erinacei* infection on, in hamsters, 143
Litomosoides carinii, excretions and secretions of during development in the jird, 317
Liver fluke, regulation of energy metabolism in, 217

Macrophage microbicidal mechanisms, evasion of by *Plasmodium yoelii yoelii*, 33
Maintenance, of *Theileria parva parva* infections in an endemic area of Kenya, 9
Malaria, drug resistance in, 275
Malaria-infected erythrocytes, regional differences in the binding of lectin and ferritin by, 17
Malarial invasion, inhibition of by antibodies against red cell membrane proteins, 427
Meloidogyne javanica, influence of *Pasteuria penetrans* on the host–parasite relationship of, 571
Mesocricetus auratus, clinical and pathological effects of *Echinostoma revolutum* in, 505
Metabolism, of L-serine and L-alanine by *Moniliformis moniliformis*, *in vitro*, 333
  regulation of in adult *Fasciola hepatica*, 217
Metacercariae, of *Apatemon gracilis*, population dynamics of in leeches, 517
Metacestodes, control of in sheep, 357
  effect of on the synthesis and secretion of fat body protein by *Tenebrio molitor*, 111
  of *Grillotia erinaceus*, structure of the muscle systems within, 587

Metacyclic variable antigens, analysis of in *Trypanosoma congolense, in vitro*, 99
Micromotility meter, to evaluate the action of drugs on nematode motility, 341
Migration, in the life-cycle of *Pseudodiplorchis americanus*, 451
Monensin, effect of on the tegument of protoscolex of *Echinococcus granulosus*, 347
Moniliformis moniliformis, amino acid metabolism by, *in vitro*, 333
Motility, description of a meter designed to measure effect of drugs on in nematodes, 341
Muscle systems, ultrastructure of in *Grillotia erinaceus*, 587

Nematode(s) amino acid catabolism, metabolism of the carbon skeleton, 495
  removal of the amino group, 481
  fecundity, of *Heligmosomoides polygyrus* in laboratory mice, 189
  a meter to evaluate the effect of drugs on the motility of, 341
Neuromuscular physiology, of *Grillotia erinaceus* metacestodes, 121, 133
Neurotransmitters, effects of on the somatic muscle activity of *Grillotia erinaceus*, 121
Nippostrongylus brasiliensis, effect of on blood loss in infected rats, 539

Onchocerca volvulus, characterization of the antigens of, 389
Ovarian tissue, in palaeacanthocephalans, 471
Oviposition, in *Biomphalaria glabrata*, effect of exposure to *Schistosoma mansoni* on, 443

Panagrellus redivivus, amino acid catabolism in, 481, 495
Pasteuria penetrans, influence of on the host–parasite relationship in *Meloidogyne javanica*, 571
Pathological effects, of *Echinostoma revolutum* in the golden hamster, 505
Permeability, of the egg-shell in hookworms during development and hatching, 547
Plasmodium falciparum, effect of on lectin and ferritin binding to the infected erythrocyte, 17
  inhibition of invasion by with antibodies against red cell membrane proteins, 427
  mechanism of pyrimethamine resistance in, 275
  synchronization of the gametocytes of in an automated suspension culture system, 263
Plasmodium yoelii yoelii, evasion of macrophage microbicidal mechanisms by, 33
Plerocercoids, effect of infection by on lipid metabolism in hamsters, 143
Poecilia latipinna, acquired resistance of to infection by *Ichthyophthirius multifiliis*, 251
Population dynamics, in echinococcosis and cysticercosis, 357
  of *Apatemon gracilis* in leeches, 517
  of *Heligmosomoides polygyrus* in mice, 177
Praziquantel, action of on the metacestodes of *Grillotia erinaceus*, 133
  effect of on *Schistosoma mansoni* surface antigens *in vitro*, 401
Pseudodiplorchis americanus, intestinal migration in the life-cycle of, 451
Pyrimethamine resistance, mechanism of in *Plasmodium falciparum*, 275

Rainbow trout, effects of physical factors on eye-fluke infection in, 71
Rattus rattus, characterization of *Schistosoma mansoni* infections in, 39
Red cell membrane proteins, antibodies against inhibit malarial invasion, 427
Resistance, cutaneous cellular reactions associated with the acquisition of by cattle to *Hyalomma anatolicum anatolicum*, 305
  mechanism of to pyrimethamine in *Plasmodium falciparum*, 275

Schistosoma haematobium, attrition and temporal distibution of in laboratory mice, 55
Schistosoma mansoni, attrition and temporal distribution of in laboratory mice, 55
  effect of exposure to on fecundity in *Biomphalaria glabrata*, 443
  effect of praziquantel on the surface antigens of, 401
  from naturally infected rats, 39
Schistosoma spp., ultrastructure of the tegument of, 433
Schizogony, immunogenicity of the first generation of in *Eimeria tenella*, 1
Seasonal occurrence, of *Trilocularia acanthiaevulgaris* in spiny dogfish, 153
Spiny dogfish, seasonal occurrence of *Trilocularia acanthiaevulgaris* in, 153
Spirometra erinacei, effect of on lipid metabolism in hamsters, 143
Sporozoites, evasion of macrophage microbicidal mechanisms by, 33

Subtriquetra subtriquetra, behaviour and development of in fish, 81
Surface and secretions, a comparison of between *Trichinella pseudospiralis* and *T. spiralis*, 163
Suspension culture, use of for synchronization of *Plasmodium falciparum* gametocytes, 263

Taenia taeniaeformis antigens, immunochemical analysis of from *E. coli* clones, 599
Tegument, effect of monensin on in *Echinococcus granulosus* protoscoleces, 347
ultrastructure of in *Schistosoma* spp., 433
Tenebrio molitor, effect of *Hymenolepis diminuta* on the synthesis and secretion of proteins by, 111
Theileria parva parva, maintenance of infections of, 9
Trichinella pseudospiralis, comparison of the surface and secretions of with *T. spiralis*, 163
Trichinella spiralis, comparison of the surface and secretions of with *T. pseudospiralis*, 163
glucose absorption by the enteric stages of, *in vitro*, 581
Trichostrongylus colubriformis, use of the aggregation response of in anthelmintic screens, 531
Trilocularia acanthiaevulgaris, seasonal occurrence of in spiny dogfish, 153
Trypanosoma congolense, analysis of the variable antigen types of the metacyclic and mammalian forms of, 99
Trypanosoma (*Nannomonas*) *congolense*, evidence of genetic diversity in, 291
Trypanosoma, seasonal and age distributions of in rodents, 279

Ultrastructure, of muscle systems within *Grillotia erinaceus*, 587
of the larva of *Subtriquetra subtriquetra*, 81
of the tegument of *Schistosoma* spp., 433
Ultrastructural study, of ovarian tissue in palaeacanthocephalans, 471
of *Plasmodium falciparum* gametocytes in suspension culture, 263
of the binding of lectin and ferritin by malaria-infected erythrocytes, 17
of the effect of monensin on the tegument of *Echinococcus granulosus* protoscoleces, 347
to compare the surface and secretions of *Trichinella pseudospiralis* and *T. spiralis*, 163

Variable antigen types, analysis of in metacyclic and mammalian forms of *Trypanosoma congolense*, 99
Viviparity, exhibited by gravid *Haemonchus contortus in vitro*, 371

Wuchereria bancrofti, antigenic characterization of, 559
